IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Bazin et al.
 Serial No: 08/477,989 Art Unit: 1806
 Filed: June 7, 1995 Examiner: Gambel, P.
 Title: LO-CD2a Antibody and Uses for Inhibiting T-Cell Activation and Proliferation

DECLARATION

Assistant Commissioner for Patents
 Washington, D.C. 20571

Dear Sir:

Herve Bazin, Dominique Lazine, Ruth Kaplan, Thomas Kieber-Francons, Christina E. Posterna, and Mary E. White-Scharf declare as follows:

1. The above named persons are the inventors of the claimed subject matter of the present application.
2. The claimed subject matter of the present application with respect to a humanized antibody having defined changes in the framework of the light and heavy chains is disclosed (but not claimed) in U.S. Application Serial Nos. 08/472,281 and 08/477,877; however, such disclosed but unclaimed subject matter was invented by the inventors named in the present application.
3. They further declare that all statements made herein of their own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application and any patent issuing thereon.
